

Everton Primary School

Victorian Curriculum content and delivery statement

Everton Primary School delivers the Victorian curriculum through a combination of integrated learning and explicit teaching of content. Our classrooms have printed off statements that reflect VC learning outcomes, These are used during planning and are visible daily to students.

Our content is delivered utilising our teaching and learning Instructional Model that has been developed by our SIT in conjunction with input from our students. It is researched based and closely aligns to the DET Victorian Teaching and Learning Model. Incorporated into our pedagogical approach is researched based HITS that are evident in termly planning and combined Carra days.

Our teaching practice is reviewed while termly planning and monitored throughout the year through the PDP process.
