School profile

The school was established in 1878, and is situated next to the Everton Public Hall on spacious grounds with an adjoining recreational complex, comprising sports ground, tennis courts, netball/basketball court and barbeque area, complimenting the school facilities. The extensive well-kept grassed and concrete areas provide ample space for games and sport. We have a new BER classroom, a revamped Playgroup/music room for our music program, and very successful weekly Playgroup which runs each Friday.

We have a separate administration building which houses the office area and a storage room. We have disability access with a separate toilet block.

Everton Primary School maintains high levels of parental involvement through School Council, voluntary in school functions and fundraising.

The Everton Primary School is dedicated to bringing quality education to country students and is a school of which our community is proud.

We are dedicated to providing quality education for country students we constantly assess the school and student needs.

Everton Primary School offers a holistic approach to learning in a positive, caring and safe environment. The School has a strong partnership between staff and parents resulting in a school community committed to delivering a quality education. Focusing on individual strengths, the school aims to prepare each student for secondary education with sound academic skills and a keen sense of self-discipline and respect for others. We strive to provide a nurturing and challenging environment that empowers students to reach their personal best, both academically and socially.

School values, philosophy and vision

Our school is committed to providing a safe, secure and stimulating learning environment for all students. Students can reach their full educational potential only when they are happy, healthy and safe, and when there is a positive school culture to engage and support them in their learning. Our school acknowledges that student wellbeing and student learning outcomes are inextricably linked.

It is fundamental to acknowledge that each teacher is a vital source of support and a determinant in the success of their students. The teachers at this school will work collectively to ensure that students feel valued and cared for, have meaningful opportunities to contribute to the school and can effectively engage with their learning. This school recognises the need to be engaging and inclusive, recognising and responding to the diverse needs of our students, accommodating different learning profiles and rates of learning and intervening early to identify and respond to individual student needs.

Our school strives to be a learning community where students and teachers can relate well to each other, and where different ideas and viewpoints are valued and respected.

Our heterogeneous profile means that in any given class a range of student ability exists, in some cases spanning five years. Within this diversity, our school aims to challenge all students to become optimistic, resilient, creative and critical thinkers. We seek to promote our school values of diversity, achievement, responsibility and endeavour throughout the curriculum, in co-curricular activities, and in our daily operations.

Our Statement of Values is available online.

Wellbeing and engagement strategies

The school will focus on establishing positive and respectful relationships, particularly between teachers and students, and establishing a learning community that provides multiple and diverse opportunities for students to experience success.

The school will collaboratively develop and implement a fair and respectful whole-school behaviour management approach.

The school will encourage and provide multiple opportunities for parents/carers and members of the broader community to play an active part in the life of the school and the education of their children.

The school's curriculum will include pro-social values and behaviour to enable students to acquire knowledge and skills, value diversity and build a culture of learning, community and engagement.

The school will promote active student participation and provide students with a sense of ownership of their environment.

The school will support families to engage in their child's learning and build their capacity as active learners.

The school will establish social/emotional and educational support for vulnerable students and monitor and evaluate progress.

The school will have processes in place to identify and respond to individual students who require additional assistance and support.

The school will build strong links with the local community to gain access to an extended network of community members, professionals and educators who can provide expertise and experience that can build the capacity of our school and our teachers to respond to the needs of the students.

EPS has developed a range of strategies to promote engagement, an inclusive and safe environment, positive behaviour, and respectful relationships for all students in our school. We recognise the importance of student friendships and peer support in helping children and students feel safe and less isolated. We acknowledge that some students may need extra social, emotional or educational support at school, and that the needs of students will change over time as they grow and learn.

When a student acts in breach of the behaviour standards of our school community, Example School will institute a staged response, consistent with the Department's policies on behaviour, discipline and student wellbeing and engagement. Where appropriate, parents will be informed about the inappropriate behaviour and the disciplinary action taken by teachers and other school staff.

Our school considers, explores and implement positive and non-punitive interventions to support student behaviour before considering disciplinary measures such as detention, withdrawal of privileges or withdrawal from class.

Disciplinary measures may be used as part of a staged response to inappropriate behaviour in combination with other engagement and support strategies to ensure that factors that may have contributed to the student's behaviour are identified and addressed. Disciplinary measures at our school will be applied fairly and consistently. Students will always be provided with an opportunity to be heard.
